This is one of the Roald Dahl stories I enjoy the most! Good book and a classic. Our Ten Little Niggers, or Ten Little Nurses, is a play for children written by the British playwright J B Priestley in 1920. J. M.

---

Barrie adapted the play into a novel in 1921. First published by Heinemann in 1929, it is a story of schoolboys who trick a visiting spinster into poisoning them with the help of a group of African children. The spinster is the title character, a nursery governess who looks after the ten boys and girls in her care at Abinger Hall, a private school in Surrey. The theme is 'naughty boys'. The "Roald Dahl" files: Part One. Part Two. Part Three. Roald Dahl.pdf Roald Dahl's first children's story was written when he was six years old and he says that it was for his mother. He remembers her reading it out to his younger sister Jane and he is delighted to discover that it is the first piece of writing that his sister remembers reading. The "Nurse Matron" is the main character of the story and she is the one who escapes the boys' revenge when they are accused of throwing paint at the windows of the girls' bedrooms. Book Review: Man from the

South, Roald Dahl, Mar 05, 2008 .. This story is probably the most famous and best written of Roald Dahl's short stories. It starts off with the story of a man whose boat is wrecked on a deserted island and he meets a single-minded native woman. Their relationship is one of strength and support to one another and they begin a strong and lasting love. This story is a classic, not only because of its perfect writing, but because of its message about never judging someone because of their background, race, or circumstances. The story deals with such a sensitive subject without being sappy or overbearing. This is one of the best short stories, if not the best short story, of all time. The "Cats" Files: Part One. Part Two. Part Three. Roald Dahl's "Cats" Files.pdf This story is unique in that it is a part of a collection of short stories written by Roald Dahl. Each story deals with a different theme. In this collection the theme is "Why
