Using the software is like using your own personal photo editor. You can work on your images as a photo "journal" and not just as a single image. Lightroom is useful for backing up and exporting your finished images to websites, such as social media sites and blogs, as well as printing them with a printer. The concert was filmed and recorded using the RCA BV-20 BVM (or 'BVM Camera') and the BVM-60 (or '60 Camera'), two 35 mm single-channel cameras. The live album is considered one of the band's best. Background The band was performing their third live album at this date in a concert that took place in a hall of the University of British Columbia in Vancouver, Canada during the Vancouver Music Festival on March 25, 1987.
