Sollic Image Resizer can give you a helping hand in case you need to convert or resize collections of images, providing support for some of the most widely used graphic formats. With its simple and intuitive looks, it addresses all kinds of users, making each task just a matter of pressing a button. Allows batch conversions for popular image formats The application provides

1/6

support for batch operations, which means you can process more than one image at a time. As such, converting or resizing images requires minimum effort from the user's part. The range of supported formats is limited, but comprises the most popular image formats, namely JPG, BMP, GIF and PNG, Moreover, Sollic Image Resizer can be used to resize pictures to small sizes, so that you can use them as icons. Convert, rotate and apply grayscale effects Its interface is intuitive and easy to get accustomed with, including a folder explorer that enables you to navigate to the desired location. Sollic Image Resizer enables you to choose the file type you want to process and resizes all the matching images that it finds in the selected folder. The built-in converter can help you change the format of all the aforementioned image types, in batch mode as well. Thus, with the push of a button you can have all the images in a folder converted to another format. Aside from resizing photos, this application can also be used for rotating images of applying them grayscale effects. A simple image converter for beginners Sollic Image Resizer is pretty simple and straightforward, not requiring advanced computer knowledge. It fulfills its purpose while keeping things simple, but it is not even close to more advanced image editing software. As such, its feature set and its limited range of supported file formats might not be enough for all users. Sollic Image Resizer can give you a helping hand in case you need to convert or resize collections of images, providing support for some of the most widely used graphic formats. With its simple and intuitive looks, it addresses all kinds of users, making each task just a matter of pressing a button. Allows batch conversions for popular image formats The application provides support for batch operations, which means you can process more than one image at a time. As such, converting or resizing images requires minimum effort from the user's part. #### **Sollic Image Resizer Torrent (Activation Code)**

Sollic Image Resizer is a handy little image resizer that allows users to resize and/or rotate their favorite images with the ease and simplicity of a button click. Sollic Image Resizer provides a lightweight image editing toolkit, allowing users to customize their images using one of the multiple available presets. The interface is very easy to use, and no prior knowledge is required for the application to work, Sollic Image Resizer can edit several image types, like JPG, BMP, GIF and PNG. Additionally, it can resize images to any of the predefined sizes (50%, 75%, 100%, 150%, 200%, 300%, 400%, 500% and 600%), in case you are looking for a suitable way to cut down on storage space or make your icons smaller. It can also help you convert your images to various formats, like JPEG, BMP, GIF, TIF and PNG, as well as rotate them by any angle you like. You can simply select an image and click Convert to change its format, or click Convert All Images to convert a whole folder of images at the same time. You can also use it to apply grayscale effects and sharpen your images with a single click, ------What's New in this Release: ------ Version 1.2.0: - Worked round the clock to add a new preset to the program: The icon pack. - Fixed the Import panel by updating the loaded file list (as in v1.1.1). - Fixed some bugs and optimized the application Version 1.1.1: - Fixed a bug that caused an out of memory error while the program was in full screen mode. - The Import panel should now work properly. - There's a minor bug fix in the program's code. Version 1.1: - The application now has a new interface. - It is no longer limited to 5 photo files. - There are a total of 3 new image presets included in the package. - The application now has a Convert Images to (option). - There is a new Advanced option in the Settings menu. - The Import panel was adjusted to improve the readability of the program's contents, - There are a couple of small bugs fixed. Version 1.0.6: - There are 2 bug fixes: The program is now more stable and doesn't crash when converting images.

WeChat(Chinese): The project is located here: A: Batch conversion is always nice to have. You need to install a tool like picasa to convert them all, I am not sure if you can directly convert the image to another one without installing picasa. If you want to use an online tool like this, try (2.5M) Never miss a thing from across Yorkshire! Get the biggest stories direct to your inbox Subscribe Thank you for subscribing See our privacy notice Invalid Email An electrician has been arrested over the deaths of two victims who were found at a west Yorkshire farm. Police are treating the deaths of a 16-year-old boy and a man in their 20s as murder. Detectives launched a major investigation at a farm in Chapel Allerton after the bodies of the teenager and the man were found at around 11am on Saturday. Both men were stabbed, both at the same time, by a person or persons unknown. The pair, who are not related, were in the area at the time, but how they came to be in the area remains a mystery. (Image: PA) The 16-year-old was discovered in the barn of a farm on

Wessington Court in south Allerton, near Scartho, Bradford, while the second body was found in a field on the opposite side of the road. The arrests of a 47-year-old man and a 47-year-old woman came after a search warrant was executed at their homes in Shipley and Leeds. Bradford Central CID Detective Chief Inspector Jon Ward said: "The men, who are not related to the victims, were arrested on suspicion of two counts of murder yesterday and remain in custody. "They have been assisting detectives with our inquiries and providing us with information, however, we are treating their arrest as a precautionary measure. "They are not being interviewed at the present time and at this stage we have no reason to believe that anyone else is involved. "We will carry on speaking to them, which we are doing as a matter of urgency, and once that is complete, we will interview anyone else who may be in the vicinity." DCI Ward confirmed no further arrests had been made.
