usp.Birthdays.on.the.Edge.of.Two.Signs.pdf.rarQ:

Uncaught TypeError: Cannot read property 'replace' of
undefined I am trying to extract text from a dynamic td
element with JavaScript. The JavaScript is called by an
onclick="popupid('surname');". The only thing I can
think of is that my script is called before the td element
is created. I am basically struggling to use this example
on a dynamic td element. Any help would be much
appreciated, thanks. This is the function in use:

```
function popupid(id){ var field =  
document.getElementById(id); var value =  
field.innerHTML; alert(value); var regex = new  
RegExp('*id=["']?([^\"]*).*?', 'g'); value =  
value.replace(regex, '$1'); alert(value); var regex2 =  
new RegExp('*id=["']?([^\"]*).*?', 'g'); value =  
value.replace(regex2, "td"); alert(value); } d0c515b9f4
```
