FIFA's "real-life player" model is one of the primary storylines of FIFA 22. Like previous iterations of the franchise, the game will include boots that can alter player attributes and strength, intelligent AI assistants to provide game intelligence and constantly adapt FIFA's movements and tactics, and players that learn and evolve through play. Players who pre-order today will get a bonus, more than 20's worth of other content, including loads of classic content from the past few years of FIFA and FUT, new teams and features, and, for those with EA Access, early access to FIFA Ultimate Team (FUT) packs. Read on for the full list of additions to FIFA 22, announced in three phases. Gameplay FIFA 22: FIFA 22 takes a player-driven approach to the FIFA series with more than 16 million real-life player and more than 100,000 animations ranging from jogging to sprinting, tackling, throwing, shooting, and more. Players will learn and grow within the new game's "learn and play" system. Learn and Play: Players can grow, learn from mistakes, and evolve as they play to unlock new tactics, traits and formations. Pitch Player: Players can take unique control of the pitch with unique traits and style of play. Faces: More than 9,500 real-life player appearances, over 125,000 animations and more than 3,000 facial expressions. New Controls: Players receive a brand new ball physics system. The skill of the new ball physics make tackling more realistic. It will also make defensive play more realistic. The new dribbling and passing controls see FUT players adopt a more realistic footwork. The corner kicks in the game will make a sharper turn and be easier to control. Players also no longer force the ball to snap, instead players have freedom to manoeuvre the ball with greater precision. New AI Navigation: New Player AI navigation also includes a new host of AI vision and goal seeking. Players can directly influence the AI vision and can choose their own tactics to influence the player AI. The AI will also use tactics and plays that it believes will work best. Intelligent AI: Players have direct influence over the AI by their coaching tactics and personal attributes. The new AI will learn from their own actions and the actions of other players, and will make

Fifa 22 Features Key:

- Level and Tier Scores reveal your level and Tier within the Ultimate Team game mode. These metrics are weighted by the time you have spent in the mode, not your performance.
- If your Pass Catcher stat is higher than 5, you can work out how many more passed goals your Pass Catcher won than you scored. While it is perfectly OK to miss your shots, it helps if you are able to get the ball over the line.
- Although it is not mandatory, having a Goal Attacking unit on your team will assist your players with scoring.
- In the Goal Event, the more players you have on your line-up, the more goals will be scored for you.
- Other Improvements
 - Play off the ball more consciously, for example, using a Counter-Break to isolate one of your players and then execute a cutting pass into open space
 - Intuitive controls, with the ability to double press directional pads to slide feet-first to a ball that is in tight gaps, easily, with the feel of a real football, like FUT 14. We have also refined the control set up, put back and adapt buttons to make it much simpler to use
 - In-game stadium editor, adding new goals and luxury seats in your new club's stadium
 - 20+ brand new teams, from Underdog legends, to the best club eva having won multiple FIFA titles.

What's new in Fifa 22:

- **Hypermotion Technology (HMTx):** HMTx will create real-world athlete animations in-game to bring your players' athleticism to life.
- **Introducing Classic Matchmaking - Back to the beautiful days of football. Play with friends from across the world as you face off in World Cup, Champions League, and Superseason Matchdays. Make matches real with weather and time effects, giving you more control over how your match will play out.**
- **The celebration system has been improved to create more celebration events. Fans will be more involved and players will feel the impact of your actions in more impactful ways.**
- **Balancing and Backwards Compatibility: Game modes and in-game details - such as the number of substitutions an individual player can make, or the type of pre-match warm-up you'll be able to perform - are not backwards compatible.**
- **Into the future with New Draft Mode. I'm creating new Pro Clubs from scratch using advanced AI technology that allows for further unlimited customization within the license and gaming environment. That's amazing.**
- **Real-time Player Analysis. I'm not concerned with stereotypes anymore. Player profiles and player conditions based on real-world statistics and performance are here to stay.**

FIFA is the biggest game in the world, the #1 game in the world. Since its debut in 1992, it's sold over 400million units and won numerous awards including Game of the Year and Sports Game of the Year. And let's not forget the 110million iOS and Android downloads worldwide. And EA is making it better. We're listening to you, the community. We know what works and what doesn't. We've improved the gameplay, introduced new ways to play and added new players and ways to play them. And for the first time in franchise history, FIFA is getting a companion app so you can play with your friends no matter where you are. But it's not over. We're still listening, still making changes, always striving for the next-generation. The game remains world class, and it remains a force to be reckoned with. Can't wait to get your hands on it? Powered by Football™, EA SPORTS™ FIFA 22 brings the game even closer to the real thing with fundamental gameplay advances and a new season of innovation across every mode. The Journey Mode. With the Journey map introduced in FIFA 20, we're bringing it to FIFA 22. Journey Mode puts you in control of a player in search of a dream move - one they have never, or may never, play. You'll follow their journey across the globe to destinations including their childhood haunts, and the sights and sounds of the places they call home. Because the next step for player-controlled stories is realism. All the new stories in Journey Mode are told from a player's perspective, and place you in the most authentic locations possible. So whether you're striving to score a memorable strike in a local park, or intercept the first pass against a prolific goal-getter, you're involved in every situation. The Journey mode really lets you live the dream of being a football player. And the best part is you can play with friends from across the globe. Improved gameplay and AI. We're improving the gameplay, adding new ways to play, and beefing up how we perform real-time AI on the pitch. It adds excitement to the game, and gives you more opportunities to really help your team win. And we're smarter in how we handle your teammates, too. Trials Arena. In the trial we introduced the first mode that lets you test all sorts of new ideas before heading into the real thing: We
